

Processor:

64-bit Intel Core i5 (or AMD equivalent) clocked at 2GHz or better

RAM:

8GB-16GB or more

Graphics Card:

A dedicated OpenGL 2.1 compatible graphics card with 2GB-4GB of VRAM or more

Vectorworks with Vision requires a dedicated graphics card with 4GB or VRAM or more, preferably released in the past three years (e.g. NVIDIA GeForce GTX 1070 or 1060 series, AMD Radeon RX 500 series).

Using multiple view panes with different visibilities in all panes requires a graphics card with at least 2GB of VRAM, with 3GB or more recommended for large files.

Display Resolution:

1920 x 1080 or higher

Hard Disk:

10GB free disk space is required for the installation. 30GB or more is required for a full installation with all libraries.

Installing Vectorworks on flash storage (SSD) is recommended.
