What is Tiitus Light Entrepreneur Service?

Tiitus Light Entrepreneur Service is a work invoicing service for students who want to work as entrepreneurs without starting their own company. The service provides an easy way to bill your own work and takes care of all the bureaucracy like you would normally with a trade name or a company of your own.

What is a light entrepreneur?

Light entrepreneur earns with his own skills. The light entrepreneur works for his customers and sends an invoice for it through the invoicing service. Light entrepreneurship is often an alternative to trade name or company of your own. What makes it easy is the lack of bureaucracy, as the invoicing service takes care of it. Light entrepreneurship is especially suitable for freelancers, aid and project

You can find the light entrepreneur menu from the left side panel.
